**Final Submission:**  
October 07, 2018

**Conference Date:**  
October 23-25, 2018

### The Conference Topics Include:

- Aerial and underwater robotics
- Bio-inspired robotics
- Cable robots, cognitive robotics
- Collaborative robotics
- Robotic Control systems
- Humanoids
- Intelligent robotics and systems
- Legged robots, manipulation
- Mechatronics systems
- MEMS
- Micro-and nano- robots
- Modeling and identification
- Motion planning and learning
- Opto-mechatronics
- Parallel robotics
- Probabilistic robotics
- Reconfigurable robots
- Rehabilitation
- Robot calibration
- Robot control
- Robotic platforms
- Service and Field robotics
- Telerobotics
- Visual robotics
- Wheeled mobile robots
- Social Robotics
